

aFourPaper

Igor, Andrea, Igor

Motivation

- ✓ Long-term archiving
- ✓ Rich content newspaper

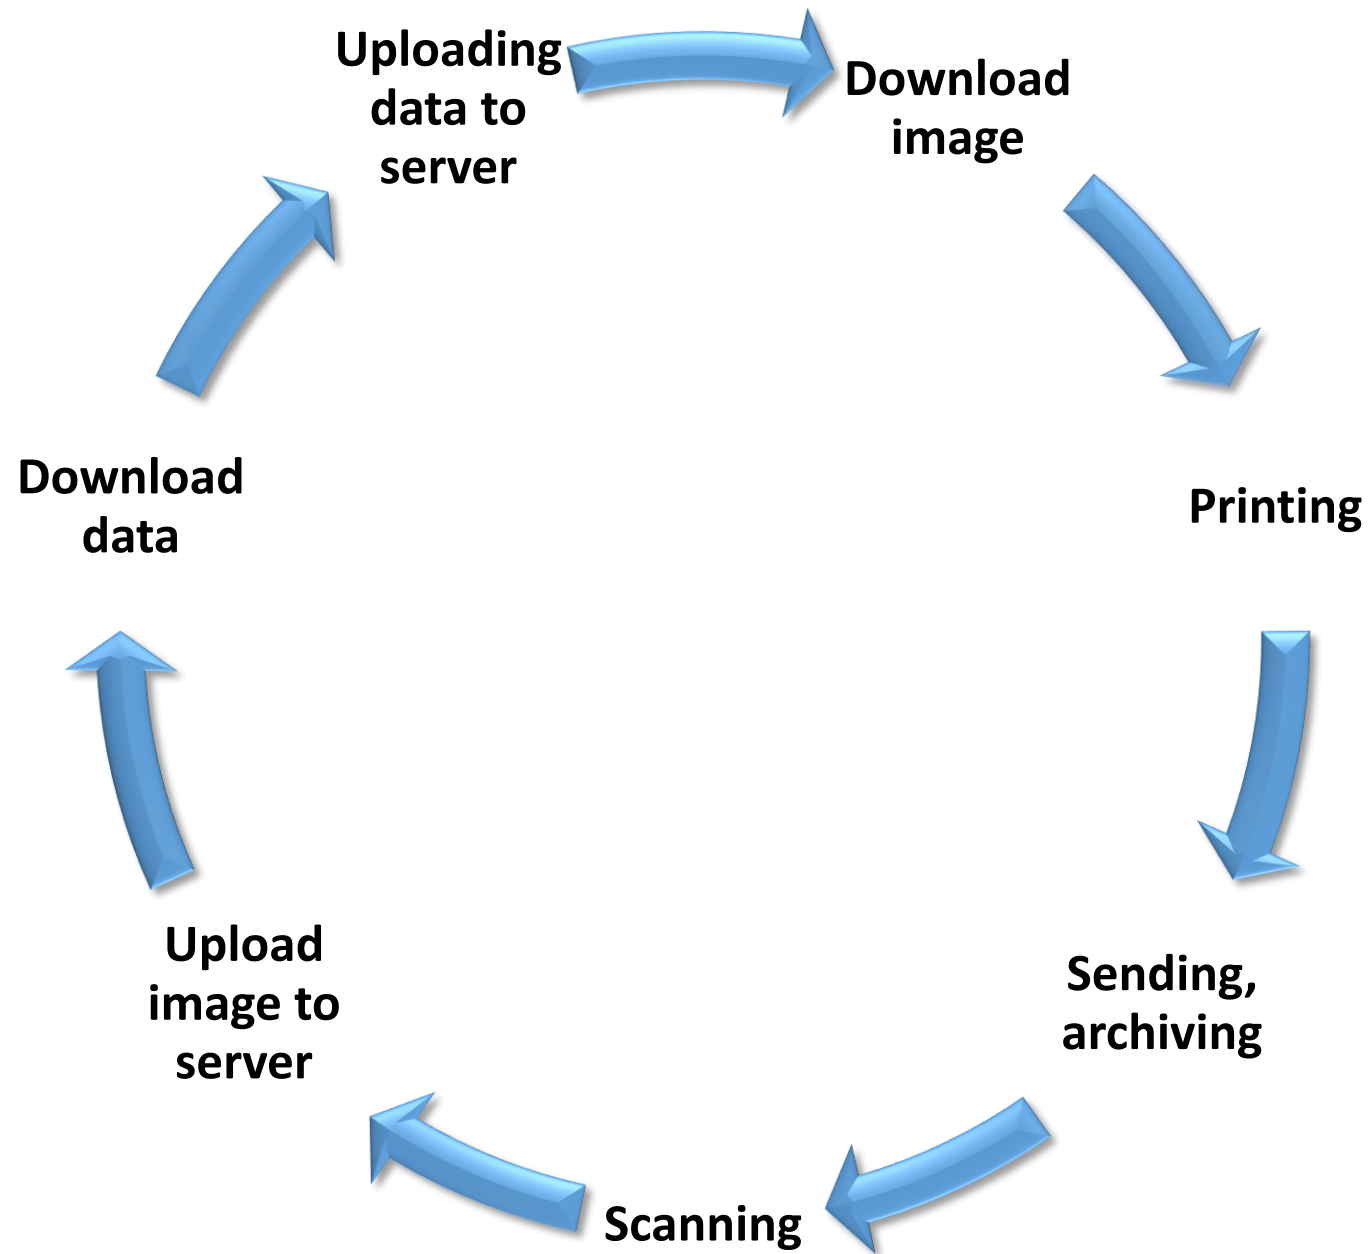

What we did

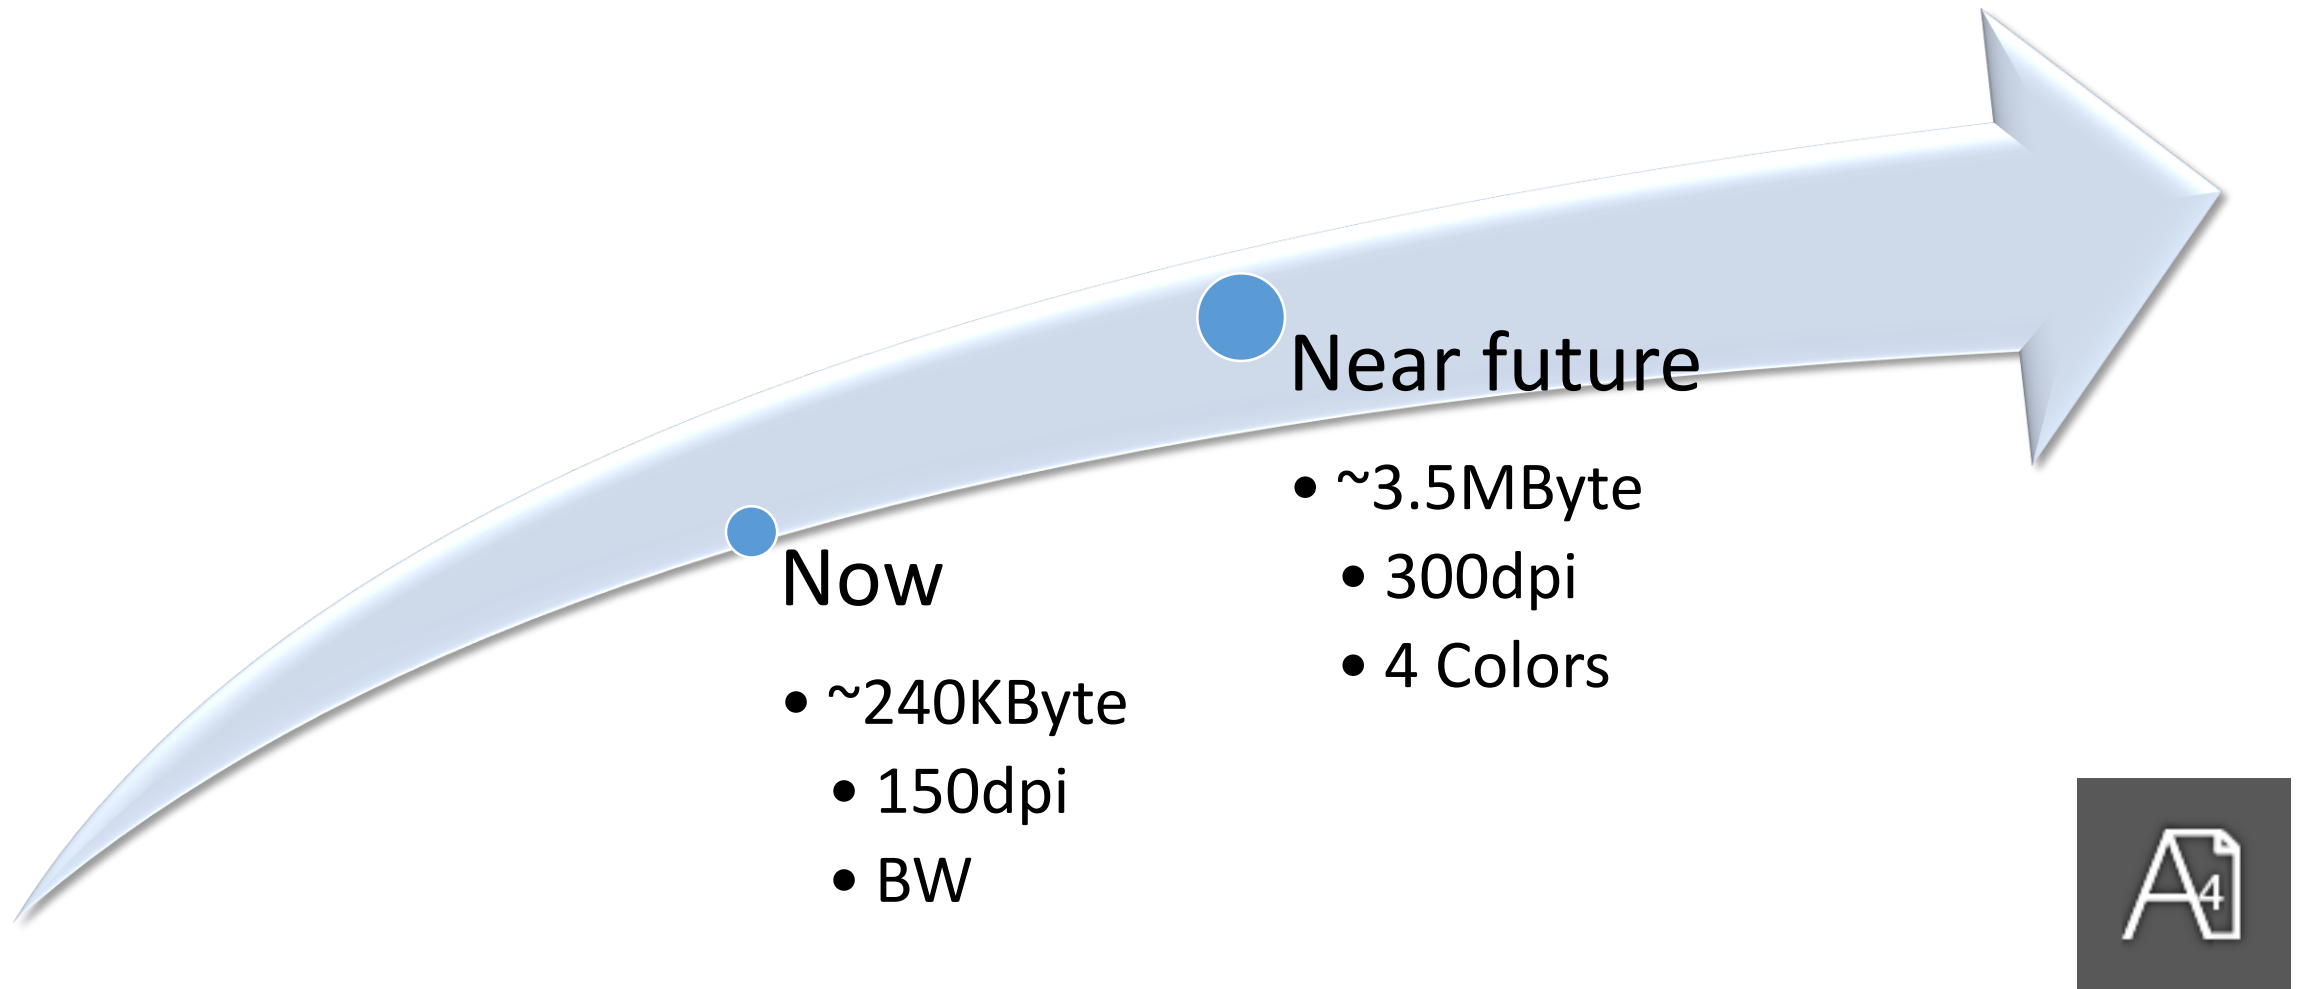

- ✓ Managed to save over **200 Kbytes on a single A4 Page** (already with error correction)
- ✓ **Developed a complete backend** for converting data of any type into images (like .png) with special pattern and alternating bits for more accurate data reproduction
- ✓ Already provided support **to convert scanned images back into data**

Process

What about future?

What can you print with 200 kB
